

> DATA CENTER 1

Our main Chicago data center, what we generally refer to as DC1, houses over 2,000 dedicated servers for over 1,000 customers around the world. DC1 features redundant N+1 power, HVAC, and top-of-the-line networking facilities.

The building features over 200,000 square feet of raised-floor computing space; Recon Hosting currently has 15,000 Sqft of computing space in this location.

Certifications and Design

- SAS 70 Type I certified
- Dual-city grid power feeds.
- Plus battery backup with automated transfer switch and on-site diesel generator
- FM 200 server-safe fire suppression system with early pre-fire detection mechanism
- Automatic temperature and climate control system with humidity and temperature sensors located throughout the facility
- Biometric and key card security system including man-traps and rack level locking mechanism
- Chicago Datacenter technicians staffed 24/7
- Over 40 Gbps connectivity

Visit Chicago Data Center 1 in Person

We are very proud of our Chicago DC1 and love giving tours. To schedule an in-person tour of the DC1 space, please call (800) 604-3043 to speak to one of our Account Executives. We can typically accommodate in-person tours Monday to Friday 9 AM to 5 PM Central Time.
